# DEPENDABLE AND DURABLE

The Mahindra 6080 Tractor is engineered to meet the diverse needs of modern farming. This powerhouse machine combines unrivaled performance, robust construction, and reliability to help you tackle the toughest tasks with ease.

- **Innovative Engine Performance:** Powered by a Mahindra engine, the Mahindra 6080 delivers 80 HP for superior power in the field. Experience excellent fuel efficiency combined with high torque, optimizing productivity even in demanding conditions.
- **Comfort and Ergonomics:** The open operator station with its flat platform makes access easy, with the operator's comfort in mind.
- **Transmission System:** Featuring a synchromesh transmission with 15 forward and 15 reverse gears, the tractor allows seamless shifting and a wide range of speed options, ensuring you have the right gear for every task.
- **Enhanced Capacity:** Boasting an increase in hydraulic capacity and with a rear lifting capacity of 2900 kg, the Mahindra 6080 ensures efficient handling for those heavy tasks.
